September 4th-6th 2019

FROM GENDER DYSPHORIA TO SURGICAL CIRCULAR ECONOMY AN EXPERT MEETING

Transgender individuals have gender identities that differ from sex recorded at birth. Surgery represents an early focus in the organized program planned to assist these patients although just some of them are looking for obtaining surgical procedures such as external genitalia removal and vaginoplasty or penile reconstruction or breast prostheses implant. Most of other subjects are seeking for non surgical transgender medical services, including hormone therapy, primary care and mental healthcare. The process of aligning physical characteristics with gender identity may also involve other aspects such as change in appearance (e.g. with clothing, make up and accessories) and do not involve the surgeon but other professionals such as psychiatrists, endocrinologists, sociologists. Due to these reasons gender dysphoria has to be considered as a big challenge for future people communities. Previous studies estimate that 0.6% of US adult population are transgender. Europe Union seems to be in line with the same number of people. It means that about 4 million people in Europe are affected by gender dysphoria and are waiting some help for adequate treatments.

Azienda Ospedaliera Universitaria Pisana has been recently recognized as one of the most representative Italian centers dedicated to transgender surgery and has been appointed as the referral center on the topic in the mid-Italy area.

Due to these reasons we planned the meeting entitled "FROM GENDER DYSPHORIA TO SURGICAL CIRCULAR ECONOMY: AN EXPERT MEETING". All aspects of gender dysphoria will be discussed during the first day of the meeting while transgender surgery "live sessions" by the most recognized expert surgeons in the field will be performed during the following days. Moreover some interesting aspects regarding tissue recovery and banking will be also discussed in the meeting final session.

You are all invited to join this interesting event.

Riccardo Bartoletti and Girolamo Morelli

DAY1 - September 4th 2019

Introduction and welcome ceremony

Chairmen: Francesco Francesca, Marco Carini

- 08.30-08.45 **Introduction and welcome**
Girolamo Morelli, Riccardo Bartoletti, Luca Menesini,
Alessandro Tambellini
- 08.45-09.00 **Innovation and research in Academia**
Paolo Mancarella, Paolo Miccoli
- 09.00-09.10 **The transgender PDTA**
Silvia Biani
- 09.10-09.25 **On the institutional contribution of the Italian NIH**
Marina Pierdominici

Gender dysphoria: what's the meaning?

Chairmen: Riccardo Bartoletti, Sergio Serni

- 09.25-09.45 **Psycho-social aspects** Paolo Valerio
- 09.45-10.05 **Transgenderism: the role of culture and information** Flavia Monceri
- 10.05-10.25 **Something more than a simply vocation** Mario Maggi
- 10.25-10.40 **Discussion**
- 10.40-11.00 **Coffee Break**

11.00-11.40 Invited lecture

Wladimir Luxuria

How to second the transgender transformation process

Chairmen: Alessandra Fisher, Linda Vignozzi

- 11.40-12.20 **Gender variants in teens** Alessandra Fisher, Jiska Ristori
- 12.20-12.40 **Hormonal treatments: critical aspects** Domenico Canale
- 12.40-13.00 **Transgender surgery: the lawyer point of view** Giovanni Maria Flora
- 13.00-13.30 **Discussion**
- 13.30-15.00 **Lunch**

Surgical Path to transgender transformation

Chairmen: Carlo Trombetta, Carlo Bettocchi

- 15.00-15.30 Lecture: The male to female surgery Mujde Ozer
Lecture: The female to male surgery
- 15.30-16.00 Forearm flap phalloplasty David Ralph
- 16.00-16.30 Antero-lateral thigh phalloplasty Andrew Nimal Christopher
- 16.30-17.00 Metoidoplasty Marta R. Bizic
- 17.00-17.15 The management of genital health in MtF patients: from medical to
Laser treatment Marco Gambacciani

17.15-17.45 Round table: The transgender surgical process in Italy

Chairmen: Girolamo Morelli, Carlo Trombetta

Discussant: Girolamo Morelli, Carlo Bettocchi, Fulvio Clombo, Luigi Rolle, Andrea Cucci, Massimiliano Timpano, Marco Falcone, Chiara Dalle Luche, Massimo Lavaggi, MIT Bologna, ATN Napoli, Leila Pereira, Samantha Trapanotto

DAY2 - September 5th 2019

LIVE SURGERY

08.00 Female to Male Surgical Procedures OR1

Chairmen: Luigi Rolle, Tommaso Cai

Provokers: Michele Rizzo

AMS Penile prosthesis in abdominal Phalloplasty David Ralph

Provokers: Marco Capece

Zephyr malleable penile prosthesis implant in abdominal Phalloplasty
Nicolas Morel

08.00 Male to Female Surgical Procedures OR2

Chairmen: Luigi Rolle, Tommaso Cai

Provokers: Massimiliano Timpano

Scrotal flap vaginoplasty Mujde Ozer

Colon vaginoplasty, Video: trip and triks Piero Buccianti

14.00 Female to Male Surgical Procedures OR1

Chairman: Emanuele Cigna, Fulvio Colombo

Provokers: Marco Falcone

Coloplast Penile prosthesis in abdominal Phalloplasty Andrew Nimal Christopher

Metoidoplasty Marta R. Bizic

14.00 Female to Male Surgical Procedures OR2

Chairman: Emanuele Cigna, Fulvio Colombo

Provoker: Marco Capece

Metoidoplasty and Zephyr prosthesis implant Nicolas Morel

DAY3 - September 6th 2019

Circular Economy in Urological Surgery

Chairmen: Riccardo Bartoletti, Girolamo Morelli

08.40-09.00	Introduction Riccardo Bartoletti, Girolamo Morelli
09.00-09.20	The recycling in the third millenium Francesco Cecchetti
09.20-09.40	Rationale for healthy tissues recovery and recycling Riccardo Bartoletti
09.40-10.00	How to spare healthy tissues for others surgeries Girolamo Morelli
10.00-10.20	Healthy tissues engineering Arti Ahluwalia
10.20-10.40	Tissue collection and preservation: the tissue bank Simone Lapi
10.40-11.00	Discussion
11.00-11.30	Coffee Break
	Chairmen: Simone Lapi, Paolo De Simone
11.30-11.40	Healthy tissues immunological aspects Paolo De Simone
11.40-12.00	How to use healthy tissues for transplant and/or scaffolding Girolamo Morelli
12.00-12.20	The political point of view AOUP Representative
12.20-12.40	The social point of view Antonio Valentini
12.40-13.00	Take Home Messages and Conclusions Riccardo Bartoletti, Girolamo Morelli
