PERSONAL SKILLS AND COMPETENCES

- ECDL training and exams during High school;
- Active member in the local committee of SISM Brescia (Segretariato Italiano Studenti in Medicina), part of the IFMSA, the International Federation of Medical Students Associations for four years; I've also been part of the National Committee as the national Coordinator of the STEP Project (Sudan Tropical Exchange Project).
- Good relational skills derived from theatre courses and animator in summer camps and from the organization of a lot of events in my local committee, for example Lab Mond (a workshop about global health), different kind of peer education, theme days and conferences.

SOCIAL SKILLS AND COMPETENCES

I took part to many IFMSA national events, following in particular sessions about SCORA (sexual health) and SCORP (humans rights and peace).

I went to Vienna with my anatomy Professors in order to participate to a dissection course.

In 2013 I went in Sudan with the IFMSA Step Project about tropical disease: I had lessons at the University of Khartoum, rounds in different hospitals and took part in a Medical Mission. I also went at the “Salam Centre for Cardiac Surgery” to see Gino Strada’s operations.

I become a peer educator, doing peer education in high school about sexual health and in primary school about Human Rights.

I went in Iceland in 2015 with IFMSA in Neurology Department to improve my skills.

I went in Mexico in 2017 with IFMSA in Anesthesiology Department to improve my skills.

**ORGANISATIONAL SKILLS
AND COMPETENCES**

I organized a lot of events in my SISM local committee, for example Lab Mond (a workshop about global health), different kind of peer education in primary and high schools, theme days and conferences.
I've been an active member of my local committee and in the National one, where I've been the Sudan Tropical Exchange Project coordinator.
I've also been responsible of my college building, mediating relationship between students and coordinators and organizing cultural events.
