INTERNATIONAL CONGRESS

THE SECRETS OF PELVIC FLOOR SURGERY

Tips, tricks and vision for the pelvic floor surgeons of the modern era

Chairs: Gabriele Naldini and Tommaso Simoncini

PISA, 8th-9th MAY 2023 PISA, ITALY

Congress Chairman

GABRIELE NALDINI

Chief of Multidisciplinary Proctology and Pelvic Floor Clinical Center - University Hospital of Pisa
Director of Proctology and Perineal Surgery Department
Director of SIC (Italian Society of Surgery) School of Proctology and Pelvic Floor Diseases

TOMMASO SIMONCINI

Professor of Obstetrics and Gynecology
Head, Division of Obstetrics and Gynecology
Director, Residency Program in Obstetrics and Gynecology
Director University Master in Multidisciplinary pelvic Floor Surgery University of Pisa

An innovative concept of video-congress!

The aim of this congress is to discuss about surgical techniques for the management of pelvic floor diseases trying to define the surgical procedures learning from the experts' tips and tricks. All the speakers will discuss videos focusing on surgical steps and also present surgical indications with their own results compared to the literature. This innovative concept of video-congress will wear and informal suit. In fact, each topic will last 25 minutes, 10 min for speaker's presentation and 15 for the discussion, leaving time to get an active engagement from the audience which is also allowed to ask questions during the session. The discussants will be chosen among all the registered attendees who will agree to play this role, whereby it is not just a discussion between experts, but there will be interactive lectures to answer questions and analyze doubts of the attending scientific community. At the end of the congress there will be the survey "Let's find an agreement!" based upon 10 statements about the surgical techniques for the treatment of pelvic floor diseases. It will be possible to revise the statement and re-vote them up to 3 rounds in order to achieve a >70% agreement. The final report of the survey could be published and all participants will be considered as co-authors of the collaborative paper

Faculty

SCIENTIFIC PROGRAM

Monday May 8th 2023

08:30	Registration
08:45	Welcome & Introduction
	Gabriele Naldini & Tommaso Simoncini
	THE LEAKY SPHINCTERS
	Chairs: Gabriele Naldini, Guillaume Meurette
	Discussants: Peter Willner-Haring, Marilena Gubbiotti
09:00	Fecal incontinence: surgical strategies
	Arantxa Muñoz Duyos
09:25	POP and incontinence: surgical strategies
	Stefano Salvatore
09:50	SNS for urinary and fecal incontinence
	Franco Marinello
10:15	Sphincter repair and sphinkeeper: tips and tricks
	Carlo Ratto
10:40	Coffee break
	FIXING THE PELVIC FLOOR FROM THE BOTTOM UP
	Chairs: Stefano Salvatore, Roland Scheerer
	Discussants: Paolo Tonello, Orlando Caruso
11:00	"To mesh or not to mesh?"
	Jan Deprest
11:25	STARR and Altemeier: indications, techniques and results
	Alessandro Sturiale
11:50	Transvaginal native tissue repair for anterior and posterior prolapse
	Marco Torella

12:15	Internal and external Delorme technique and results: why doesn't it gain popularity?
	Janindra Warusavitarne
12:40	Transvaginal treatment of apical prolapse
	Paolo Scollo
13:05	Light Lunch
	FIXING THE PELVIC FLOOR FROM ABOVE
	Chairs: Jan Deprest, Michel Adamina
	Discussants: Alfredo Genovese, Elena Nicoli
14:05	Surgical anatomic landmarks for abdominal suspensive surgery
	Giuseppe Campagna
14:30	Sacrocolpopexy the basic steps
	Laurent De Landsheere
14:55	Ventral rectopexy the basic steps
	Andre D'Hoore
15:20	Alternative suspension strategies
	Jean Dubuisson
15:45	Management of combined rectal and urogenital prolapse. Abdominal, perineal or combined procedure?
	Guillaume Meurette
16:10	Coffee break
	I HAVE A NIGHTMARE: PELVIC FLOOR FISTULAS
	Chair: Giovanni Milito, Mauro Cervigni
	Discussants: Valentin Sojar, Mauro Calandra
16:30	Classification and preoperative assessment
	Roland Scheerer
16:55	Surgical strategies and techniques for rectovaginal fistulas
	Dong-Lin Ren

17:20	Management of vescicovaginal fistulas
	Vincenzo Li Marzi
17:45	Closing session

Tuesday May 9th 2023

	FEMALE GENITAL MUTILATION: A SOCIAL AND SURGICAL CHALLENGE
	Chairs: Tommaso Simoncini, Emanuele Cigna
09:00	The cultural background and social impact of FGM
	Nura Musse Ali
09:25	Surgical management of FGM in a dedicated hospital
	Hillary Mabeya
	WHEN EVERYTHING FAILS...
	Chairs: Domenico Mascagni, Giulio Del Popolo
	Discussants: Simona Ascanelli, Elena Nicoli
09:50	Management of recurrent urogenital prolapse
	Mauro Cervigni
10:15	Management of recurrent rectal prolapse
	Steven Brown
10:40	Management of recurrent urinary incontinence
	Gunter Noè
11:05	Management of recurrent fecal incontinence
	Farouk Drissi
11:30	Coffee Break

	OH MY GOD, A SURGICAL DISASTER!
	Chairs: Jean Dubuisson, Pierpaolo Sileri
	Discussants: Sergio Sforza, Valerio Vagnoni
11:50	When the anatomical correction causes worsening of symptoms
	Steven Shraffordt Koops
12:15	Management of mesh erosions and infections
	Fatma Ayca Gultekin
12:40	Management of bowel or vascular injuries associated with pelvic floor reconstructive surgery
	Michel Adamina
13:05	Light lunch
	THE NEVER-ENDING CHASE FOR TECHNOLOGY FOR PELVIC FLOOR RECONSTRUCTION: IS IT WORTH?
	Chairs: Andre D'Hoore, Steven Shraffordt Koops
	Discussants: Massimiliano Mistrangelo, Liliana Mereu
14:05	Surgical training for multidisciplinary pelvic floor surgery
	Barry O'Reilly
14:30	The robot and the pelvic floor
	Tommaso Simoncini
14:55	Can a cadaver lab be the solution to teach pelvic floor surgery?
	Antonio Arroyo
15:20	vNOTES and pelvic floor reconstruction
	Jan Baekelandt
15:55	Survey: let's find an agreement
	<i>Interactive Delphi on pelvic floor surgery</i>
	Gabriele Naldini, Tommaso Simoncini
17:00	Closing Ceremony
