| Vishal Shelat (India) | Jean Louis Vincent (Belgium) |
| Michael Sugrue (Ireland) | Edward Tan (The Netherland) |

Program:

January 20th, 2021 - 3.00 to 4.00 p.m. CET

**Severe peritonitis:
to leave the abdomen open vs. to close it**
PRO Open Abdomen Andrew Kirkpatrick
CONS Open abdomen Marja Boemeester

February 25th, 2021 - 3.00 to 4.00 p.m. CET

**High grade splenic injury:
angioembolization vs. splenectomy**
PRO Splenectomy Walter Biff
PRO Angioembolization Pradeep H Navsaria

March 26th, 2021 - 3.00 to 4.00 p.m. CET

**Complicated acute diverticulitis:
resection and anastomosis vs. Hartmann proc.**
PRO Resection/anast Fausto Catena
PRO Hartmann Yoram Kluger

April 30th, 2021 - 3.00 to 4.00 p.m. CET

**Fluid management in abdominal sepsis:
fluid restriction vs. liberal administration**
PRO Fluid restriction Manu Malbrain
PRO Liberal administration Jean Louis Vincent

May 27th, 2021 - 3.00 to 4.00 p.m. CET

**Hemodynamically transient responders trauma
patient CT scan or not**
PRO CT-scan Junichi Matsumoto
CONS CT-scan Edward Tan

June 25th, 2021 - 3.00 to 4.00 p.m. CET

**Hemodynamically unstable patients in pending cardiac
arrest: resuscitative thoracotomy and REBOA**
PRO Resuscitative thoracotomy Demetrios Demetriades
PRO REBOA Viktor Reva

September 24th, 2021 - 3.00 to 4.00 p.m. CET

**Intra-abdominal infections:
long course vs. short course antibiotic therapy**
PRO Long course Kemal Rasa
PRO Short course Robert Sawyer

October 29th, 2021 - 3.00 to 4.00 p.m. CET

**Severe thoracic trauma and flail chest:
rib plating vs. conservative management**
PRO Rib plating Joe Galante
PRO Conservative management Raul Coimbra

November 26th, 2021 - 3.00 to 4.00 p.m. CET

**Non complicated acute diverticulitis:
antibiotic treatment vs. non antibiotic treatment**
PRO Antibiotic treatment Massimo Sartelli
CONS Antibiotic treatment Ari Leppaniemi

December 17th, 2021 - 3.00 to 4.00 p.m. CET

**Severe acute cholecystitis in high risk patients:
cholecystectomy vs. gallbladder drainage**
PRO Cholecystectomy Michael Sugrue
PRO Drainage Vishal Shelat

Logistical information: Introduction 5 min, Pro and Cons debate 15 min + 15 min, Discussion, Questions and Conclusion 20 min. Total 60 minutes. Free participation on Zoomplatform.

Complicated acute diverticulitis: resection and anastomosis vs. Hartmann proc.

PRO Resection/anastomosis
PRO Hartmann

Fausto Catena
Yoram Kluger
